Notice of Examination for Registration Wed., Apr. 12, 1989

Pursuant to the provisions of 37 CFR §§10.5, 10.6 and 10.7, an examination for persons seeking registration before the United States Patent and Trademark Office as patent attorneys and agents will be held on *Wed., Apr.*

12, 1989. The deadline for filing applications along with the $250 fee and all necessary showings required by 37 CFR §§10.7(a) and (b) is *Jan. 31, 1989.*

With the exception of those persons who actively served four years or more in the examining corps of the United States Patent and Trademark Office for whom the examination may be waived, all persons recognized for practice before the Patent and Trademark Office in patent cases must, pursuant to the above noted rules, pass the examination. Note that passing the examination does not qualify one for recognition for practice before the Patent and Trademark Office in trademark cases. Such recognition is governed by 37 CFR §§10.14 which does not require the passing of an examination.

There is no limit on the number of times the registration examination may be taken. The examination consists of two parts, a morning section and an afternoon section. To pass the examination, an applicant must pass both sections. An applicant who passes one section of any examination given on or after Apr. 7, 1987, but who fails the other section, will not be required to retake the section passed, *provided* the applicant takes and passes the section failed in one of the next three examinations regularly scheduled by the Patent and Trademark Office. If the applicant does not pass the section failed within 18 months after failing the section, the applicant must retake both sections of the examination. No extensions of time will be granted except in extraordinary circumstances, e.g. an accident or hospitalization just prior to the examination which prevented the applicant from taking the examination.

Under 37 CFR §10.7(b), persons seeking registration must submit "satisfactory proof of . . . sufficient basic training in scientific and technical matters . . . ." The inital submissions of persons not having degrees in recognized subject areas, e.g. physics, chemistry, biology or engineering, are sometimes inadequate, and must be supplemented before such persons can be approved to take an examination. To afford adequate time to present any supplemental showing, it is recommended that such persons file their applications early, preferably *at least two months* before the Jan. 31, 1989 deadline. Supplemental showings of qualifications and applications received after Jan. 31, 1989 will be considered only in connection with admission to the Oct. 1989 examination.

The examination is administered under the supervision of the Office of Personnel Management and is given at specific locations throughout the United States where the Office of Personnel Management conducts examination.

Application forms may be obtained from the Office of Enrollment and Discipline, Suite 810, Crystal Park 1, 2011 Crystal Dr., Arlington, Va. or by mail addressed to Box OED, U.S. Patent and Trademark Office, Washington, D.C. 20231.

Reference Collections of U.S. Patents Available for Public Use in Patent Depository Libraries

The following libraries, designated as Patent Depository Libraries (PDLs), receive current issues of U.S. Patents and maintain collections of earlier-issued patents. The scope of these collections varies from library to library, ranging from patents of only recent years to all or most of the patents issued since 1790.

These patent collections, which are organized in patent number sequence, are available for use by the public free of charge. Each of the PDLs, in addition, offers supplemental reference publications of the U.S. Patent Classification System, including the *Manual of Classification, Index to the U.S. Patent Classification, Classification Definitions,* and provides technical staff assistance in their use to aid the public, in gaining effective access to information contained in patents. CASSIS (Classification And Search Support Information System); which provides direct, on-line access to Patent and Trademark Office data, is available at all PDLs. Facilities for making paper copies of patents from either microfilm or paper collections are generally provided for a fee.

Since there are variations in the scope of patent collections among the PDLs and in their hours of service to the public, anyone contemplating use of the patents at a particular library is advised to contact that library, in advance, about its collection and hours in order to avert possible inconvenience.

SECTION 2.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).
